IMPLANT & AESTHETIC CLINIC

PATIENT INFORMATION

WHAT MAKES BELMORE DENTAL SPECIAL?

At Belmore Dental Implant and Facial Aesthetics Clinic, we are proud to offer exceptional, high-quality dentistry, with a comprehensive range of treatments conveniently all available under one roof! However, there's much more that sets us apart.

Our clinic is centrally located in the heart of Enniskillen, with ample parking nearby and bus connections across both the North and South of Ireland, making us easily accessible for all.

WE'RE FOCUSED ON DELIVERING TOP-TIER, PERSONALISED CUSTOMER SERVICE. THROUGHOUT YOUR JOURNEY WITH US, ONE OF OUR FRIENDLY TREATMENT COORDINATORS WILL BE ON HAND TO SUPPORT YOU.

Our team is made up of dedicated, friendly professionals who share a commitment to making your experience as positive as possible.

Belmore Dental is a multi-award-winning practice, with honours including Best Dental Team, Best Dental Practice, Practice of the Year, and awards for Excellence in Customer Service. Using the latest techniques, materials, and technology we offer a wide variety of treatments tailored to meet your specific needs. As leaders in modern dentistry, we're constantly updating our treatment offerings and advanced technology to provide you with the most innovative care available.

A unique part of Belmore Dental's culture is our strong charitable values. Our entire team regularly participates in events to give back to our local community and beyond.

MEET OUR TEAM

Dr Sinead McEnhill

BDS (QUB 1995) MSc (Imp Dent) MFGDP (UK 1998)
Adv Dip Imp Dent RCS (Eng. 2007) FICD

GDC No. 70804

**Winner of the 2018 Aesthetic Dentistry Award –
Implant Multiple Case**

Sinead is the Director and Principal dentist of Belmore Dental. Since founding the clinic in 2003, Sinead has built an impressive career. Serving as a tutor and practice assessor for the Royal College of Surgeons (England) Diploma in Implant Dentistry, lecturing worldwide on multidisciplinary Implant dentistry, and focusing on digital technology to ensure the patient is always front and centre.

A pioneer in digital dentistry, Sinead focuses on implant and bone reconstruction with a strong emphasis on multidisciplinary planning through Digital Smile Design. She actively mentors and educates other dentists, guiding them on their postgraduate journeys, and frequently lectures across the UK on digital workflows in implant dentistry. Her insights are also shared through numerous published articles on this topic.

In 2016, Sinead completed an MSc in Implant Dentistry from Leeds University, where her research centred on peri-implantitis. In recognition of her contributions to dentistry and philanthropy, she was inducted as a Fellow into the International College of Dentists in 2015, an honour she received at Trinity College Dublin.

Recently, Sinead has written a book that guides dentists through the multidisciplinary treatment planning process. Among her other notable achievements, she serves on the editorial boards of Irish Dentistry and Irish Dentistry Magazine, is a board member of the Digital Dentistry Society UK, and is on the teaching faculty of the One-to-One Implant Diploma Program in Harley Street, London.

Sinead has worked hard over the years to develop a wide range of different areas of expertise in the fields of implant dentistry, cosmetic dentistry, and orthodontics. Therefore, she is able to consult and advise on most dental problems she is presented with. However, she only has one pair of hands! For this reason, she has hand-picked a team of dentists, therapists, and hygienists to help deliver the best service possible.

OUR CLINICAL TEAM

Whatever treatment you have come to Belmore Dental to discuss, we can guarantee that our extraordinary team approach will provide you with a treatment journey that is tailored to your specific needs.

Every member of our team cares deeply about dental health. We want to provide you with the kind of care we would want for ourselves and our families. Pain-free dentistry, delivered by friendly staff, in comfortable surroundings.

DENTISTS

DR JOE McENHILL

Joe is a highly experienced Implant, cosmetic dentist, and oral surgeon. Joe's skills often overlap or link up with appointments with Sinead. He also works very closely with our dental therapists Diana and Dearbhail. When attending for treatment with Joe you will very much feel that you have a 'team' working on your case.

DR ANNAMAREE WELSH

Annamaree is a highly experienced dentist who assists in various aspects of dental care at the practice. Her skills often overlap or link up with appointments with Sinead and Joe and you will very much feel that you have a 'team' working on your case. Annamaree also carries out routine dental check-ups.

DR CHAZZ HUNDAL

Like Annamaree, Chazz has a wide range of skills that link up very well with Sinead and Joe, in order to provide a totally complete treatment plan for our patients. Chazz provides a full range of dental treatments, including composite bonding, veneers, and Invisalign.

DR NIALL McENHILL

Niall is our longest standing dentist within the practice and has a wealth of knowledge and experience. Niall assists in various aspects of dental care at the practice and carries out check-ups and routine dental care on a large number of registered patients.

OUR CLINICAL TEAM

DENTAL THERAPISTS

DEARBHAIL CAREY & DIANA GRAHAM

Dearbhail and Diana are responsible for providing regular hygiene treatments to our many registered patients. In addition to this they both carry out all of the white filling treatments at the practice and hygiene appointments on patients before they commence implant, veneer or Invisalign treatment with our dentists Sinead, Joe, Annamaree and Chazz.

NURSING TEAM

Our nursing team consists of a group of friendly, caring individuals who are dedicated to ensuring all of our patients have a comfortable and pleasant experience. All of our dental nurses are GDC registered and appropriately trained to deal with even the most nervous of patients and ensure they feel at ease when they attend our clinic.

Our dental nurses maintain strict cross-infection controls to ensure both our patients, and our clinical team are protected.

ADMIN TEAM

Our admin team is made up of our practice manager, treatment coordinators, marketing and development manager, and our reception team. Between them, they have a wealth of experience and qualifications to keep the practice running smoothly on a daily basis.

Each member of our admin team has a strong focus on ensuring the satisfaction of our patients, helping to make them feel welcome and comfortable from their very first contact.

NERVOUS AND ANXIOUS PATIENTS

Many people feel anxious about visiting the dentist, so if you share this concern, rest assured you are not alone.

Dental anxiety often stems from negative experiences in childhood or with previous providers. However, feeling nervous shouldn't keep you from maintaining good oral health. At Belmore Dental, we're determined to make your experience as comfortable as possible. Our skilled clinicians have extensive experience supporting nervous patients, and we go out of our way to create a calm, reassuring environment for you.

For those with more intense dental anxiety, we also offer sedation options to help make your treatment relaxed and stress-free. Unlike general anaesthesia, dental sedation won't put you into a deep sleep; instead, it will guide you into a deeply relaxed state where you'll remain awake and able to communicate with your dentist.

AT BELMORE DENTAL, WE OFFER BOTH GAS-AND-AIR AND IV SEDATION. YOUR DENTIST WILL DISCUSS WHICH OPTION MAY BE BEST SUITED TO YOUR NEEDS, SO YOU CAN FEEL AT EASE THROUGHOUT YOUR VISIT.

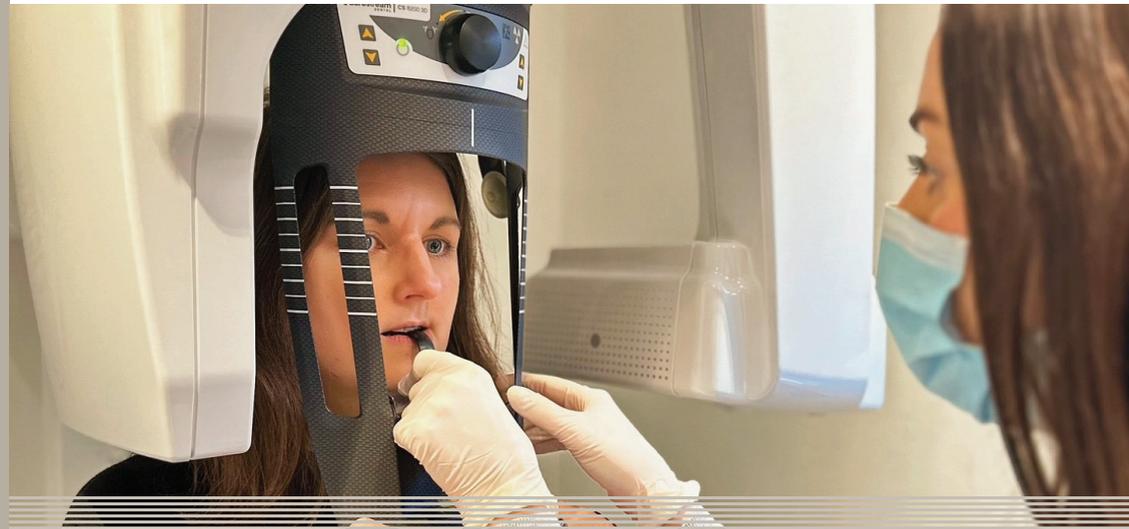

ADVANCED DENTISTRY WITH CUTTING EDGE TECHNOLOGY

At our dental practice, we pride ourselves on staying at the forefront of modern dentistry. We stay committed to providing our patients with the latest treatments and cutting-edge technology.

BY CONTINUALLY ENHANCING OUR SKILLS, EXPANDING OUR KNOWLEDGE, AND ADOPTING INNOVATIVE TECHNIQUES, WE ENSURE OUR PATIENTS RECEIVE THE BEST POSSIBLE CARE. THE RAPID ADVANCEMENTS IN DIGITAL DENTISTRY HAVE TRANSFORMED BOTH THE TREATMENTS WE OFFER AND HOW WE DELIVER THEM, ENSURING PRECISION AND EFFICIENCY.

CBCT SCANNING PRECISION AND SAFETY

Patient health and safety are our top priorities. That's why we utilize state-of-the-art CBCT scanning technology, which emits minimal radiation, while producing highly detailed 3D images of teeth and surrounding structures. This advanced imaging tool plays a crucial role in modern dentistry, enabling us to diagnose issues with exceptional accuracy – even those not visible with traditional x-rays.

ADVANCED DENTISTRY WITH CUTTING EDGE TECHNOLOGY

CEREC: 1 VISIT SMILES

In today's busy world, finding time for multiple dental appointments can be challenging. Plus, spending hours in the dental chair isn't anyone's idea of fun. That's why at Belmore Dental, we use advanced CEREC technology to craft same-day restorations, including crowns and veneers. Convenient, efficient, and high-quality care – all in a single visit!

ITERO ELEMENT 5D PLUS SCANNER

We are proud to introduce the latest advancements in our practice, starting with the iTero intraoral scanner—a state-of-the-art digital device designed to enhance your experience. This innovative scanner eliminates the need for traditional, messy impressions of your mouth, offering a comfortable and precise alternative. It also features built-in caries detection, enabling us to closely monitor your oral health.

Additionally, we have invested in a cutting-edge HIFU machine, which provides a modern, non-invasive solution for facial aesthetics, promoting skin lifting and tightening. To further enhance our services, we've acquired a 3D printer, allowing us to create detailed models of our patients' teeth for tailored treatment planning. These technologies reflect our commitment to providing the best care and results for our patients.

DIGITAL SMILE DESIGN

Digital Smile Design is an incredible tool that allows us to predict and visualise the outcome of treatments for our patients, giving them the opportunity to test drive their new smile before starting their treatment.

FACIAL AESTHETICS

We understand the connection between a confident smile, and a radiant appearance.

Our clinic offers a wide range of treatments to help you look and feel your best. From popular options like Botox and Dermal Fillers, to cutting-edge treatments such as HIFU, Profhilo & SkinPen Microneedling, we provide solutions tailored to your needs.

Safety and natural-looking results are at the heart of everything we do. Belmore Facial Aesthetics Clinic is proud to be accredited by Save Face – a national register of trusted, qualified practitioners offering non-surgical treatments. This accreditation is recognised by the Professional Standards Authority, the Department of Health, NHS England, and the Care Quality Commission, giving you peace of mind when choosing our services.

To Book a consultation and explore your facial aesthetics options, contact our friendly reception team today. We're here to help you every step of the way!

CONSENT AND CONFIDENTIALITY

The language spoken in the practice is: English

Patients who are violent or abusive to practice staff, to other patients, or to anyone else on the practice premises will be refused treatment and reported to the appropriate authorities.

We ask that any patient under the age of sixteen is accompanied by a parent or guardian.

We take patient confidentiality extremely seriously at Belmore Dental and all personal information is treated in the strictest confidence. Only members of staff have access to patient information.

All our patient records are securely stored at our practice to ensure that any patient information is only accessed as part of your treatment. No information will ever be released to a third party without express permission, or where required by law.

We have a strict confidentiality policy – to see a copy of this policy or if you would like further information regarding your rights to view your patient records please ask our reception team.

ACCESSIBILITY

We endeavour to see all patients: Unfortunately, due to where we are situated our practice is not accessible to wheelchair users.

If you do have any disability that you think we need to know about, please give us a call before your appointment and we will do our best to put suitable arrangements in place to accommodate your needs.
